

# A-BOND

## Web Adhesive Spray

ATCO's A-BOND Web Adhesive Spray is a high-performance aerosol adhesive offering rapid setting and quick dry time. For both temporary or permanent bonding, A-BOND is ideal for uneven or porous surfaces. It is waterproof, flexible, transparent and non-staining, and it can be used for the toughest adhesive applications with materials such as leather, cardboard, cloth and most plastics. A-BOND is formulated with the environment in mind, as it contains no chlorinated solvents or ozone depleters.

- ✓ Provides Instant Tack - Dries Clear in 15 Minutes
- ✓ Ideal for Uneven or Porous Surfaces
- ✓ For Use on Leather, Cardboard, Cloth and Most Plastics
- ✓ Sprays on Smoothly and Evenly

## APPLICATIONS

A-BOND Web Adhesive Spray may be used on signs and displays in place of tacks, tape and rubber cement; in textile mills to adhere labels to the back of carpeting; on minor repairs on fiberglass and gypsum insulation; for holding patterns to fabric layer cutting; anywhere an all-purpose adhesive is required.

## DIRECTIONS

**TEMPORARY BONDS:** Spray surface, allow to tack, and apply material to be bonded.

**PERMANENT BONDS:** Liberally spray both surface and material, allow to tack, then apply.

**CLEANING SPRAY TIP:** When finished with a particular spray application, always turn can upside down and spray for two seconds to clear valve and prevent clogging. If adhesive accumulates around nozzle, wipe clear while wet. If dried in valve opening, remove with degreasing solvent.

## TECHNICAL DATA

<b>Type:</b>	Spray Adhesive
<b>Appearance:</b>	Light Straw
<b>Odor:</b>	Acetone
<b>Spray Pattern:</b>	Wide Web Spray Pattern
<b>Flammability:</b>	Extremely Flammable per CPSC Flame Projection Test
